

B.O.T.

IMPACT SHEETS

Compiled Q2 2022

B.O.T. is a social enterprise and impact sourcing platform that offers high-quality data services managed by data experts and executed by a workforce of 2,000+ upskilled individuals from Lebanon and Jordan.

Our goal is to empower women and youth from low income communities by giving them access to freelance income generation opportunities that allow them to work in their neighborhood with the need to commute or travel. The managed services offered by B.O.T links our community with clients looking to get fast, reliable and high-quality data services.

Since March 2018 and to date, B.O.T has employed hundreds of young freelancers—90% of whom worked remotely—in all regions of Lebanon and Jordan.

Working with B.O.T helped me a lot in all aspects of my life as it enabled me to be more responsible, to love working as part of a team and to improve my time management skills.

Youth Impact Story Angy M. - Lebanon

Angy Joined B.O.T in December 2018, and since then she worked on many projects even though she comes from a different educational background as she graduated Arabic Literature from the Lebanese University. B.O.T helped her develop her skills and earn new ones she did not know existed.
